

Packaging data reporting and invoicing rhythm 2025-2026

PACKAGING VOLUME LESS THAN 50 000 kg/pa
(excluding reuse)

Company reports packaging data once a year
Company is invoiced once a year

REPORTING

Reporting deadline for 2024 packaging data

- Packaging data declaration form (light or detailed)
- Service and Grower packaging declaration form
- SUP declaration form

NOTE! All three forms must be returned even though the company does not have packaging to declare on the form

The service and grower packaging declaration form is used by companies to which service and grower packaging EPR was transferred 1.1.2024, excluding companies that have joined in 2024 and have a turnover of less than one million euros.

31.1.2025

Reporting deadline for 2025 packaging data

- Packaging data declaration form (light or detailed)
- SUP declaration form
- Cups sold empty to end-users declaration form

NOTE! Packaging data declaration form and SUP declaration form must be returned to Rinki.

The form for cups sold empty to end-users is returned only when the company reports cups on the form.

31.1.2026

2025

January - February

Spring 2025

2026

January - February

Spring 2026

INVOICING

Invoicing packaging data 2024

Declaration form (light or detailed)
Recycling fees are invoiced from companies which joined a Producer Organisation during 2024 and have a turnover of less than one million euros.

Service and Grower packaging declaration form
Recycling fees are invoiced from manufacturers and importers of service and grower packaging, to which EPR was transferred 1.1.2024. Excluding companies which joined a Producer Organisation during 2024 and have a turnover of less than one million euros.

Business service fee
is invoiced from companies which joined the system in 2024 and have a turnover of less than one million euros and from manufacturers and importers of service and grower packaging to which EPR was transferred 1.1.2024.

The fees are 2024 EPR fees that are invoiced retroactively.
Basis for invoicing: 2024 price lists.

Invoicing SUP fees 2024

Invoicing of SUP fees starts when 2024 SUP-packaging price lists are published.

Basis for invoicing:
reported 2024 SUP-packaging and 2024 SUP-packaging price lists.

Invoicing Recycling fees 2025 and Business service fee

The fees are invoiced when the company has reported the 2025 packaging data, including cups sold empty to end-users.

Basis for invoicing:
reported 2025 packaging data and 2025 price lists.

Invoicing SUP fees 2025

Invoicing of SUP fees starts when 2025 SUP-packaging price lists are published.

Basis for invoicing:
reported 2025 SUP-packaging and 2025 SUP-packaging price lists.

The fees are invoiced based on the price list of the producer organisation, the customer of which the company has been during the reporting period in question.

Select the reporting rhythm in Rinki Extranet by 31.1.

Default choice is reporting once a year & Q advance invoicing. The rhythm can not be changed during the year.

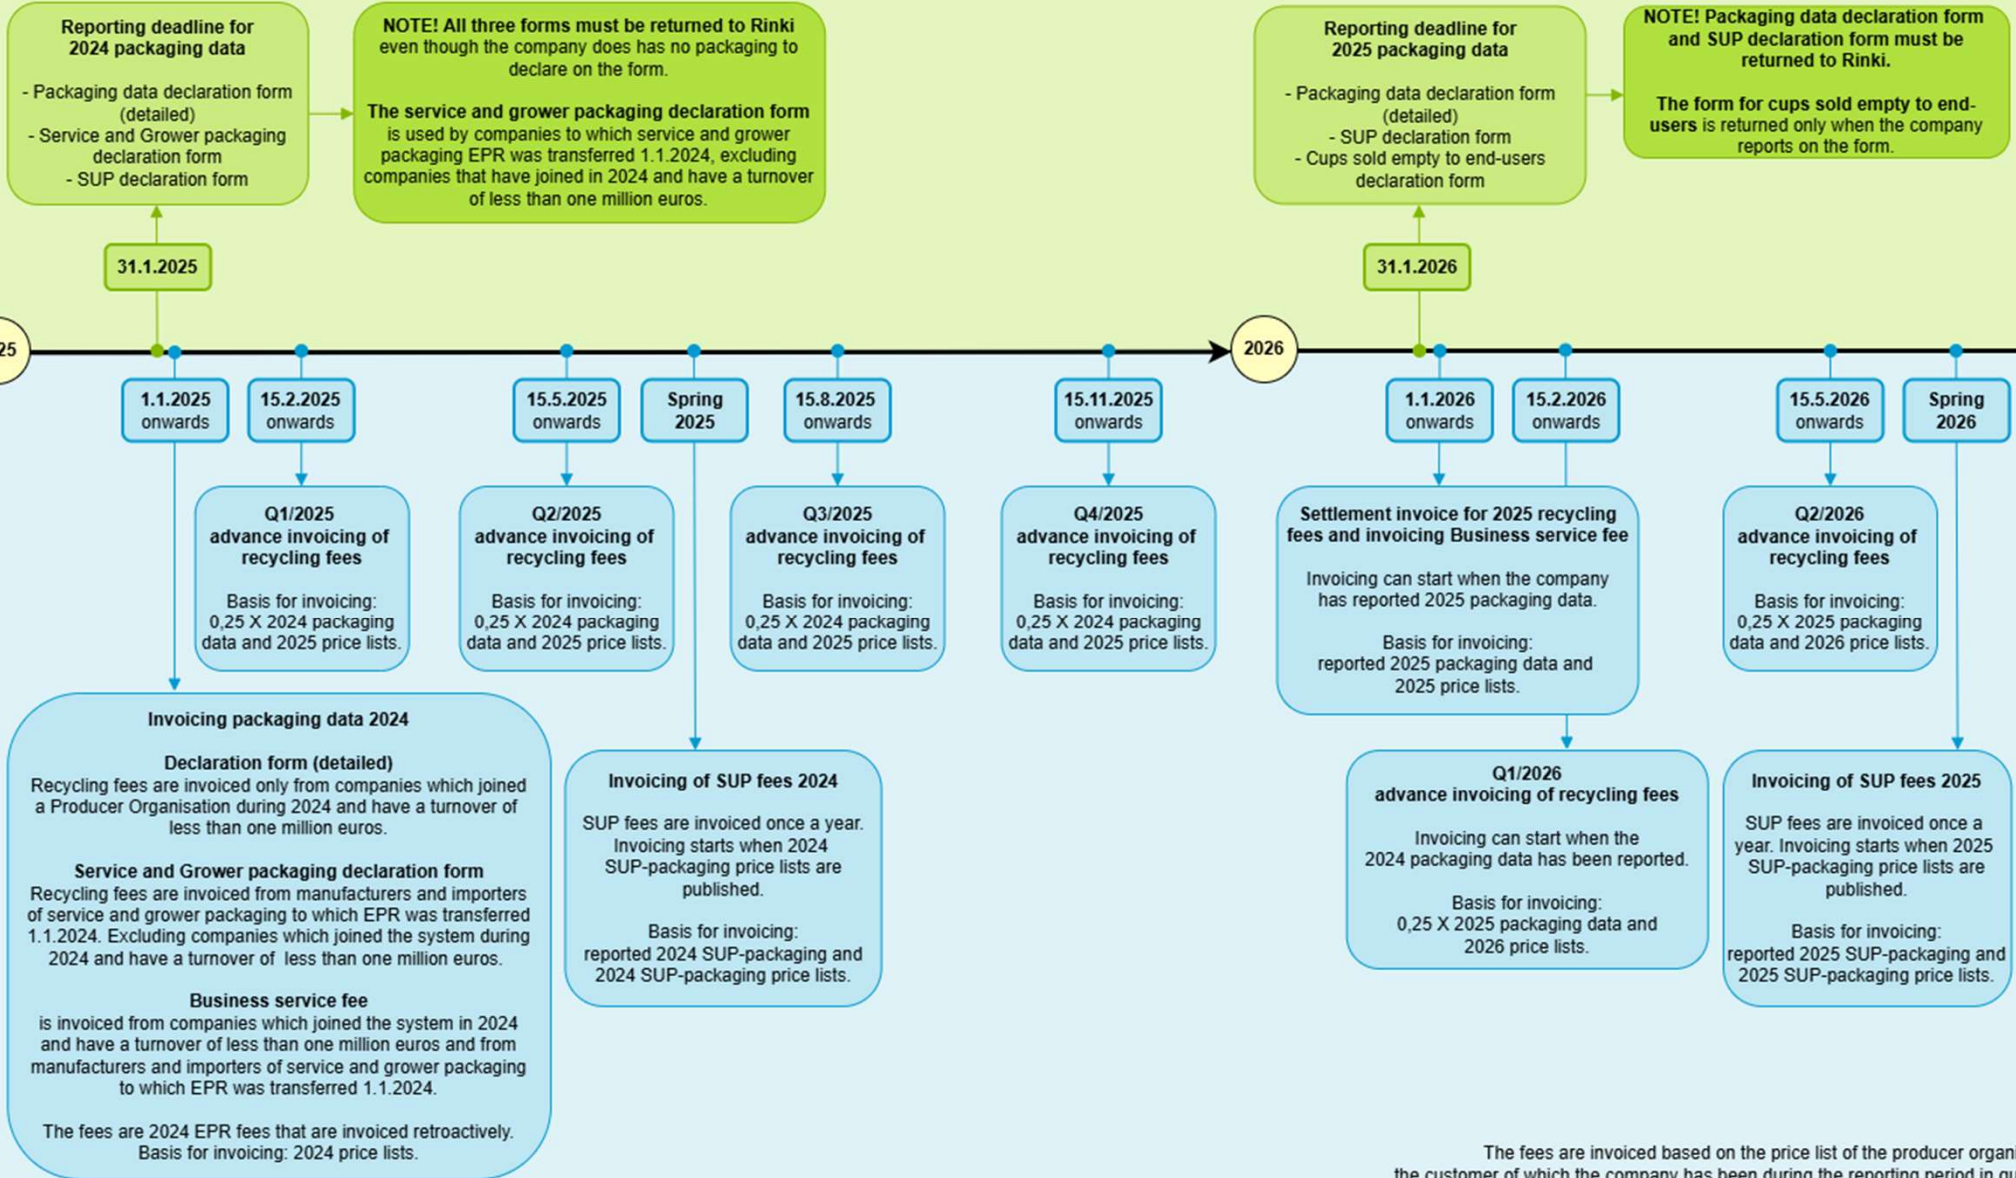

PACKAGING VOLUME MINIMUM 50 000 kg/pa (excluding reuse)

Company reports packaging data 1 x year
Q-invoicing as advance invoices 4 x year

REPORTING

INVOICING

The fees are invoiced based on the price list of the producer organisation, the customer of which the company has been during the reporting period in question.
